FTC - BEST PROGRAMMER

Best robot programming

2015

OBA - SILVER MEDAL

National astronomy silver medalist

PRIZES

Árnilsen Arthur

Game Developer / Programmer

I've always loved maths, logic and knowing how things work, so since I was a kid, I started looking at Game Development (2013). I started with Java and a few years later I got a degree in Information Technology, learning WEB and Android development. But my passion for game development is ongoing, so now I specialize full time in game development (2020+). Now I'm 20 years old
